UVT Theme

A short introduction to the West University of Timișoara Theme

The **UVT Theme** (used as `\usetheme{uvt}`) is a modern theme for Beamer based on the official UVT branding[1]. Some of its elements and styling are inspired by Trigon theme[2].

It comes with a few nifty features:

- Use of the official color scheme for UVT throughout.
- Customized environments.
- As close as possible to the official template.

Separate parts are available as e.g. `\usecolortheme{uvt}`!

UVT Theme: Colors and Fonts

West University of Timișoara

This theme uses the *Myriad Pro* font. This is a clean *sans serif* font from Adobe that is recommended by the official UVT branding.

The theme has three standard colors:

- A nice **light blue** (`UVTLightBlue`).
- A bolder **dark blue** (`UVTDarkBlue`).
- An attention grabbing **yellow** (`UVTYellow`)!
- Variants `color!x` can also be used to darken or lighten them

These can be used for emphasizing text or for more obvious **alerts**. Standard **bold** and *italic* emphasis can of course also be used!
