

# **UVT Theme Template**

Example Stylings of the UVT Theme

**Dr. Professor Hubert J. Farnsworth**

25th December, 2023

West University of Timișoara

## A short introduction to the West University of Timișoara Theme

The **UVT Theme** (used as `\usetheme{uvt}`) is a modern theme for Beamer based on the official [UVT branding](#)<sup>1</sup>. Some of its elements and styling are inspired by [Trigon](#) theme<sup>2</sup>.

It comes with a few nifty features:

- ❖ Use of the official color scheme for UVT throughout.
- ❖ Customized environments.
- ❖ As close as possible to the official template.

Separate parts are available as e.g. `\usecolortheme{uvt}`!

## Styling Elements

This theme uses the *Myriad Pro* font. This is a clean *sans serif* font from Adobe that is recommended by the official UVT branding.

The theme has three standard colors:

- ❖ A nice **light blue** (UVTLightBlue).
- ❖ A bolder **dark blue** (UVTDarkBlue).
- ❖ An attention grabbing **yellow** (UVTYellow)!
- ❖ Variants `color!x` can also be used to darken or lighten them

These can be used for emphasizing **text** or for more obvious **alerts**. Standard **bold** and *italic* emphasis can of course also be used!

We have various standard Beamer blocks styled in a pleasing fashion.

## Block 1

Some block block.

## Alert 1

Some alert block.

## Example 1

Some example block.

## Itemize

- Itemize lists are nicely customized ...
  - All the way down ...
    - To the third level!

## Enumerate

- We can also enumerate!
- Many things!
- It's great!

## Description

**UVT** And describe our university in exquisite detail, so that we can capture all its multiline greatness!
